

GO - Epitech JAM

G-JAM-001

Epitech Jam

Past, Present, Future

1.0

Epitech Jam

PRESENTATION

The main goal of this jam is for you to have **FUN!!**

Find an idea matching with the given theme, create a group and develop your project in only one week-end!

CONSTRAINTS

For this Jam you will have to respect the following constraints:

- The project group must be made up of students from several promotion
 - Example: a group made of of students from 1st and 3rd years students.

The respect of the constraints is mandatory to validate the unit.

CHALLENGES

Challenges are meant to bring a bit of fun, curiosity and push you to go further in some aspects of your project.

For this Jam, here's the available challenges:

- The project mentions or includes (in the shape of picture, video, digital character, ...) a member of the Epitech staff
- Make a video trailer for your project
- The project use interactions with the real (through the usage of pictures, videos, augmented reality, virtual reality, ...)
- The project includes a gorilla
- The project include 3 quotes (taken from real people or fictional character): one from before the 18th century, one from the 21th century and one from a futuristic centuries.

The completion of those challenges are not mandatory but will be taken into consideration during the evaluation.

EVALUATION

The evaluation of your work will be done during a keynote. You must participate to the keynote in order to be able to validate the unit.

The keynote will evaluate those points:

- The quality of your presentation and support (include a demo of your project!)
- How many challenges you managed to complete
- Originality of the idea
 - The idea **must** have a relation with the theme, but that does mean you can't be creative about it.

Have fun while working for the duration of the jam and there'll be no problem for the validation ;).
